Frontend	JavaScript, TypeScript, React, Vue.js, Nuxt.js, jQuery, Tailwind CSS
APIs	REST API, SOAP API, GraphQL, Shopify REST API, eBay API
Cloud & DevOps	AWS, Google Cloud, Linode, Docker, Nginx, Apache, CI/CD, Git, Cloudflare, Linux/Ubuntu
AI Tools	OpenAI, Google Gemini, Claude, OpenwebUI, LangChain
Other	WordPress, macOS, Windows, Filipino, English

EXPERIENCE

Sr. Software Developer, Hammerulo Data Corporation

Apr 2021 - Present

Taguig City

- Led development for Intelbase, an inventory management system with one-click publishing to eBay and Shopify and synchronized inventory updates across platforms.
- Integrated eBay SOAP API and Shopify REST API workflows for inventory and marketplace operations.
- Developed frontend features for Huvr using React and GraphQL.
- Maintained and enhanced JAWS, an internal legacy system built on Laravel 4.6.
- Managed Jira Server migration to AWS Singapore and maintained services across AWS, Linode, and Google Cloud.
- Created AI agents powered by OpenAI, Google Gemini, and Claude for HRIS, recruitment, and social media manager use cases.

Highly Technical ICT Consultant, Philippine Statistical Research and Training Institute

Jan 2021 - Dec 2021

Quezon City

- Developed an HRIS with integrated Payroll System using Laravel.
- Built a Single Sign-On application to unify access across ticketing, inventory, and other internal applications through API integration.
- Supervised and mentored junior developers while reinforcing coding standards and documentation practices.

Senior Full Stack Web Application Developer, Sun Moon Tech

May 2020 - Apr 2021

Quezon City

- Developed and maintained frontend architecture using React.js.
- Built backend applications with Laravel, focusing on server-side logic and data integrity.
- Led backend development for a mobile car insurance project, creating REST APIs, managing databases, and overseeing server configurations.

- Implemented DevOps practices including CI/CD pipelines and managed infrastructure on AWS, Linode, and Google Cloud.

Highly Technical ICT Consultant, Philippine Statistical Research and Training Institute

Jun 2019 - Dec 2019

Quezon City

- Automated inventory and procurement workflows with QR ID scanning for item history access.
- Created reporting and data visualization features for consumption and expense trends.
- Implemented the system with Laravel, jQuery, and MySQL, deployed on an on-premises server.

Sr. Application Developer, OmniQuest Inc. | Reliance Group of Companies

May 2018 - Aug 2019

- Developed and maintained the HMO Portal for Flexicare and the MPS Medical Processing System.
- Worked full stack using React.js, jQuery, PHP, Laravel, and CodeIgniter.
- Configured Apache and Nginx servers and managed AWS infrastructure for application hosting.
- Secured APIs and database connections for sensitive HMO data workflows.

Application Web Developer, Freelance

May 2017 - Aug 2019

- Built and maintained client websites and custom web applications using WordPress and Laravel.
- Delivered projects including Wonder of Words, Lawbase PH, Felson Tech, UP Dentistry Online Review, Clickbucks, and Dela Rosa Casilla Law.

Software Developer, Magnalux Digital Incorporation

Jun 2016 - Dec 2016

- Designed and developed a Payroll Management System using object-oriented programming and an MVC pattern.
- Built dynamic and static websites for clients including Globagia, Mentora, and FitCross Strength.

SELECTED PROJECTS

- Milemarker wealth management data platform using Laravel Filament, Nuxt.js, Vue.js, TypeScript, MySQL, Docker, APIs, and Tailwind CSS
- ADVSR.ai DevOps services for infrastructure, CI/CD, deployment, monitoring, and platform health
- Children of Mary Immaculate College Student Management System with admissions, student portal, and education management features
- Intelibase inventory management with Shopify and eBay integrations
- Huvr frontend features using React and GraphQL
- JAWS legacy Laravel system maintenance
- HRIS with integrated payroll
- Single Sign-On application for internal systems
- Inventory and procurement system with QR tracking
- HMO Portal for Flexicare and MPS Medical Processing System
- AI agents for HRIS, recruitment, and social media workflows
- Cloud server infrastructure across AWS, Google Cloud, Linode, Docker, Linux/Ubuntu, backups, and monitoring
- AV Suites boutique hotel website with booking system, virtual tour, SEO, and responsive WordPress implementation
- Remotify.ph infrastructure using Linode, AWS RDS, object storage backups, Cloudflare, and Linux
- Felson Technology corporate website using HTML/CSS, JavaScript, Bootstrap, PHP, and jQuery

EDUCATION

Bachelor of Science in Information Technology
